

BATWING TALLBOY® HANDLEBAR – 55800591 (CHROME), 55800592 (GLOSS BLACK)

BATWING TALLBOY HANDLEBAR

BATWING TALLBOY® HANDLEBAR

The Batwing Tallboy Handlebar is shaped to provide a tall rider with the ideal combination of shoulder, elbow and wrist position for a long day in the saddle. The Tallboy handlebar was extensively tested by a panel of riders between 5'-11" and 6'-3" tall, and the resulting shape provides a higher and flatter hand and wrist location when the installed bar is rotated to its forward position. The bar stretches the elbow to a natural angle, and reduces the cramped look often seen in riders with long arms.

The Tallboy handlebar was designed and developed in conjunction with the Harley-Davidson Tallboy seat for Touring models. Combining a Tallboy Seat with a Tallboy Handlebar provides the rider with an optimized rider triangle and a complete fit solution.

Fits '08-later Electra Glide®, Street Glide®, Ultra Limited (except '10-'13 FLHTK) and '09-later Trike models (except Freewheeler). Does not fit CVO™ models. Does not fit with accessory Heated Hand Grips. All models require separate purchase of additional components. Street Glide models and models with fairing-mount mirrors require separate purchase of handlebar-mounted mirrors and Fairing Plugs.

55800591 Chrome.

55800592 Gloss Black.

NOTE: Installation of handlebars and risers may require a change in clutch cables or lines, throttle cables, or brake lines for some models. All modular lower brake lines listed are based on stock front suspension. Harley-Davidson Motor Company cannot test and make specific fitment recommendations concerning every possible mirror and handlebar combination. Therefore, after installing new mirrors, handlebars, or control cables/lines and before operating the motorcycle, check to ensure that all controls are fully functional and that the mirrors provide the operator a clear view to the rear. Handlebar height is regulated in many areas. Check local laws before installation.
